### Twenty-ninth Sunday in Ordinary Time (Year B)

#### Gospel: Mark 10:35-45

On Sunday Jesus reminds us that it is not power or money which makes us important, but how much we help other people. Let's think about how we can help others.

What do you remember from the reading?

James and John ask to sit by Jesus's side in Heaven, but Jesus says he is not able to give them these seats.

The other disciples start to get cross with James and John. Why do you think they get cross?

The disciples felt that James and John were showing off and that James and John thought they were the best and most important disciples. Can you think of a time when you got cross because someone else was showing off about how important they are? Perhaps someone was showing off that they were the best footballer or that they had better shoes or toys than you? Can you remember what Jesus said to the disciples to stop them from being angry at each other? Jesus said that the greatest disciple was not the one who went around showing off his power, or money or things. But rather that the greatest disciple must be like a servant – humble and helping others in all that they do. How do you think the disciples felt when they heard this? Patricia lives in a village in El Salvador with her parents, her brother, her uncle, aunt and grandmother. The whole family lives in Patricia's grandmother's house. Until recently Patricia's grandmother's house was made of wood and plastic. Sometimes when it rained they got wet. It had one room for sleeping and an outside kitchen.

Patricia's grandmother goes to church every week. Other people in her parish saw that things were difficult and so they went to offer their help. First they spoke to Patricia's grandmother and talked about what the family needed and wanted. Together they decided to build a new house right next door to the old one. Everybody helped. Even though nobody in the village has much, they all did what they could. Some people donated money for the materials, others gave their time to help build. For example Patricia's grandmother helped by measuring the space for the walls. Now Patricia and her family live in a house made of bricks, with a tin roof. It's still only got one room, but they no longer get wet when it rains and it stays cool in summer when the weather is very hot. They still have their old house, and they use it for storing their things. How did the people in the village help Patricia and their family? (*They listened, and then they helped to do what was needed*) Patricia's grandmother is very pleased with her new house. And the rest of the family is happy too.

How does it make you feel to hear that Patricia's parish community helped her by building a house? Can you think of things that our community does to help others, locally and overseas?

Can you think of ways you can help people at home and at school this coming week?

Please note that all attendance awards are for the previous week.
